

ABSTRACT

1
2 Aroma generating apparatus and method is provided in a cooking apparatus having a
3 main body formed with a cooking compartment and a cooker driver to cook a food within the
4 cooking compartment. The aroma generating apparatus includes an aroma diffuser diffusing at
5 least one food aroma corresponding to a cooking menu or an aroma to remove the food aroma, a
6 keyboard providing a selection of the cooking menu, and a control part controlling the aroma
7 generator so as to produce the food aroma or the deodorizer corresponding to the cooking menu
8 selected by a user and release the food aroma or the deodorizer inside or outside the cooking
9 apparatus.
